

Dispenser Bottle Catalog 2026

Spiltag

Discover the Spiltag USA difference in 7 key steps:

1**Prompt Response for Quotation**

- Fast and transparent quoting process to keep your projects moving efficiently. All you need to do is fill out our form with the technical specifications — it's that simple.

2**Complete In-House Decoration Capability**

- Everything under one roof: Silk Screen Printing, Hot Stamping, and Spray Painting. This guarantees exceptional quality control and quick turnaround times.

3**Flexible MOQ Options**

- Minimum Order Quantity (MOQ) of 50,000 units.
- Split orders for decoration starting at just 10,000 units, providing you with flexible production planning.

4**Warehousing Across the USA**

- Strategic warehouse locations throughout the U.S. to stock your production. Pay only for what you use—no upfront bulk payments required.

5**Prototyping, Decorated Samples, and Tech Drawings – At No Cost**

- Get prototypes and decorated samples at no charge, ensuring you see the final look before full-scale production. Our engineering support team is ready to bring any custom project to life.

6**You Are Buying from an American Company**

- Spiltag USA, established in 2023 in Miami. Enjoy the benefits of a smoother, more cost-effective supply chain with no tariffs, taxes, or bureaucracy.

7**The Best Lead Time in the Industry**

- 6–8 weeks for the first order (Considering our injection mold). We manage your stock to ensure just 3–5 days of local transit time from our U.S. warehouses.

About Us

Spiltag USA is supported by our manufacturing plant in Brazil, which boasts 30 years of market excellence serving global brands.

What We Do

We specialize in providing high-quality rigid packaging solutions for the cosmetic and beauty care industries.

Our Goal

We aim to build lasting partnership with distributors who share our dedication to quality, innovation, and customer satisfaction.

Our objective is to expand our presence in the American market by delivering exceptional packaging solutions that meet the evolving demands of the beauty and cosmetic sector.

A broad selection of colors

Clear

White

Black

Amber

Blue

Green

In Spiltag, you have many color options!

We offer over 6 standard colors available for selection, but if you want something even more exclusive, we have developed over 1000 custom colors for our clients. This way, you can choose the perfect color for your project.

Our high-performance Masterbatch portfolio

Closed Master

The standard closed Master has a glossy appearance and is ideal for highlighting vibrant colors in a unique way.

Color-Shift Master

The Color-Shift Master creates a dual-color effect, changing its apparent color depending on the angle and lighting conditions.

Frost Master

The Frost Master adds a matte finish while still allowing light to pass through and the product to remain visible.

Pearlescent Master

The Pearlescent Master gives a matte look without losing its shine, resulting in a modern and unique appearance.

Translucent Master

The standard Translucent Master retains its shine while allowing light transmission and product visibility.

Neon Master

Neon Master technology provides an intense glow effect in specific lighting conditions.

New

Glitter Master

The Glitter Master adds points of light (or sparkle/shimmer) which provide a special touch to the products

New

For the finish, combine with our **Matte Effect**

Gives the packaging a matte surface finish. Achieved by **uniformly applying matte varnish** to remove gloss.

Discover our decoration technologies

Screen Printing

Ink application using a squeegee to print images and/or text directly onto the bottle.

Varnish

Same technique as screen printing. Offers a variety of finishes and can add unique matte textures.

Halftone Screen Printing

Halftone technology allows for color variations and gradients with minimal ink application.

New

Four-Color Process

A printing technique that uses four base colors (cyan, magenta, yellow, and black) to create detailed images.

Hot Stamping

A thermal stamping process where a foil transfers an image onto the packaging, resulting in a sleek and luxurious appearance.

New

Sleeve

A heat-shrinkable wrapper (or shrink sleeve label) applied to the bottle, allowing its entire body to be covered with detailed image labeling.

New

Matte Hot Stamping

Hot stamping in which a ribbon (or foil) transfers the image to the packaging, creating a satin effect.

New

Embossing

Embossing can be applied via screen printing or molding, creating raised illustrations or effects on the packaging surface.

It's about Accessibility

New

Braille

Spiltag believes everyone should have access to clear information about the products they use. That's why we're proud to present our inclusive Braille screen printing!

With our innovative Braille screen printing, every package becomes a milestone on the journey towards a more inclusive and accessible society

It's about Quality

Spiltag USA embodies flexibility and agility, and is ready to offer customized, efficient, and complete packaging solutions for projects of all sizes.

Fast & Reliable Tooling

Injection molds: 90–120 days from Korea — ensuring world-class precision and quality.

Blow molds: 30–45 days, locally supplied for speed and flexibility.

Backed by a dedicated technical team, we bring your custom projects to life with efficiency, innovation, and full support across the U.S. market.

ISO 9001

Spiltag holds ISO 9001 certification. This certification attests that the company follows rigorous quality standards in its production and commercialization. By adopting the Quality Management System (QMS) based on ISO 9001, Spiltag identifies inefficient processes, measures results, and ensures continuous improvement.

It's about Sustainability

Resin option
PCR-PET 10T

Resin option
PCR-PET 0T

All your products can have Resin PCR-PET

We offer a range of high-quality plastic resins derived from post-consumer recycled (PCR) materials, with options ranging from 25% to 100% PCR content.

ISO 14001

Spiltag is ISO 14001 certified, which demonstrates its commitment to protecting the environment. By following rigorous standards and offering sustainable solutions, Spiltag is helping to shape a better world for future generations.

Modern Round Dispenser Bottle
